

News From Your TOWN HALL

At the official meeting of the Town Fathers considerable activity resulted.

A firm asked permission of the Fathers to open a package liquor store and this permission was granted pending the location of a store room in the zone area—which is on the south side of Avenue A west of the alley and east of Southwest first avenue.

Another firm asked for a license to open a vulcanizing and retreading plant. It was reported that the WPB had already given permission to purchase the necessary equipment and supplies.

Bore's building is the reported location of the proposed retreading outfit.

The light and power set-up now, as I glean it from Pete is this:

The water works is taken care of, with reasonable precautions taken against former times will not show up.

The lines are so switched—and these switches are installed so that a novice can put them on the ground—that in case of a disturbance north of Pahokee, the business section of Pahokee and Belle Glade can be switched on to the Pahokee plant within 30 to 45 minutes. This will include the hospital at Belle Glade.

South Bay and points south can be cut off, the packing house section can be cut off, and other points north of Pahokee can be cut out, leaving the vital business sections of the two towns to be served from the Pahokee plant.

So, aside from the local plant for the water works may equal pie juice from Pahokee, equally divided between the two places to be distributed as far as possible.

The Town Clerk says "Don't forget to make application for your homestead exemption."

"Just one application made to the County Assessor is sufficient for both County and Town exemption."

The Town's garbage, and especially the refuse from the packing houses, is looming as a serious problem.

Rotting and smelly culls from the potato, celery and other packed vegetables, which have heretofore been dumped at the Town Dump, have caused comment from citizens, and some other solution must be provided to avert further acrimonious arguments and actions.

Glades Farms Are On The Air In A County Wide Plan

The amazing story of Palm Beach County agriculture will be broadcast in a series of programs on Station WJNO, West Palm Beach. The nation has been commissioned by the J. J. Cator Furniture Company to broadcast the actual, factual, on-the-scene story of agricultural development.

The programs will be heard Thursday evenings through February, March and April. The first broadcast at 7:30 p. m. on February 23rd, will originate at the Huffy Farms near Belle Glade and also the Blue Goose Packing House. It will cover the story of the potato crop.

The second broadcast covers the story of celery and its lighter side development as one of the major crops of the Glades area.

Through the series all phases of county-wide agriculture will be broadcast—sugar, beef cattle, citrus fruit, dairying and poultry.

License Tag Office Open Every Day Now

The car license tag office which has formerly been open only three days each week will now be open to the public every day from 8 a. m. to 5 p. m. and will be out from West Palm Beach to Glades. Mrs. Velva Elliott who assisted her time between here and there, Mrs. Elliott now will spend her entire time in Pahokee.

The office is in the Chevrolet store on Main Street.

Everglades Station Gets Brahman Cattle

Dr. J. R. Neller, Vice Director in charge of the Everglades Experiment Station, states that several registered Brahman heifers have been purchased by the Station. These animals are in a lot brought from Texas by the Jesse Durkin Ranch and will be used by R. W. Kidder, Animal Husbandman at the Everglades Station, in breeding experiments. It is expected that a registered Brahman bull will be obtained later.

Mr. Kidder also plans on cross breeding experiments with the registered Devon cattle that the Station now has. The purchase of the Brahman heifers was made possible by the sale of some of the Devon cattle raised at the Station. Experiments with these Brahman purebred seem favorable because the breeding of Devon bulls to the native cattle that carried some Brahman blood resulted in some of the best types of grade animals.

This extension of the work of the Everglades Station is a part of its program of a more diversified type or farming along the lines of more and better varieties of vegetables, sugarcane, grasses and field crops, thereby stabilizing the agriculture of the region against such post war shocks and changes as may occur.

Air Raid Drill Excuses Glades

Word has been received from General Albert H. Blanding of the State Defense Council at Tallahassee that the Eastern District and the Fourth Service Commands, have ordered a practice air raid drill for this Wednesday, February 23, 1944, with signals as follows:

Red 9:30 p. m. EWT.
Blue 9:45 p. m. EWT.
White (all clear) 10:10 p. m. EWT.

The signals for this drill will run from the Distribution Center in West Palm Beach from the Information Center in Miami. Dissemination from the local Distribution Center will be as usual.

By special dispensation the Pahokee and Belle Glades area, now busy shipping their winter vegetable crop so important to the war effort, are exempt from full observation of this practice black out drill but will be expected to observe a "token" blackout under the direction of their Commanders.

New Plumber Here Already Overworked

Mr. C. A. Whitman, formerly of Lake Worth, has come to Belle Glade to open a plumbing shop.

Due to the housing shortage Mr. Whitman has been forced to leave his wife and young son in Lake Worth pending the purchase or rental of a home. "We are able to secure materials for the repair of existing plumbing facilities, as well as material, to meet the minimum requirements in buildings already up."

"We are swamped with jobs already and are anxious to get permanently located in both a shop and a home for the family."

Two Clerks Needed At Rationing Board

If you want to learn the intricacies of the Rationing Board and become a part of Uncle Sam's mind as it works, you can, with good pay, then apply right away for one of the jobs, either at the Rationing Board or the Postoffice.

Applicants must have had 3 months of general clerical experience, from graduation from high school, or its equivalent, may be substituted for the three months of experience required. Additional credit will be allowed for clerical experience beyond the prerequisite or for education beyond high school. Applicants must have demonstrated the ability to meet and deal satisfactorily with the public.

The duties of the position are to have immediate supervision, to perform simple routine clerical work of a miscellaneous or general character, and to perform related work as assigned.

Car Loadings At All Time High For January Movement

474 Solid Cars For The Week Including Collards and Lettuce

Two new vegetables, collards and iceberg lettuce made their appearance for the first time this season in the list of car lot shipments from the Glades this week with on car each, in the largest weekly shipment so far this winter season.

An all time January record was set this past week with 474 carloads having the Glades, both as to tonnage and as to money received.

Now that most of our potatoes have been shipped, the OPA has announced that there is no ceiling on potatoes, and THERE HASN'T BEEN. This bureaucratic piddling and "much ado about nothing" with ignorance, pomposity and misrepresentation on the part of the OPA has cost the Glades potato farmers thousands.

The most serious result of the machinations of the OPA with regard to regulations dictating volume food on hand and on the ordinary farmer and brokers is to create an alarming disrespect for governmental regulatory agencies.

Potatoes are bringing \$2.10 to \$2.35; cabbage \$1.35, celery around \$3.50; peppers around \$3.50 to \$4.00.

The following is movement to date:

RAIL	North	End	South	East
Commodity	week	end	week	end
Beans	9	981	0	1370
Cabbage	10	143	61	287
Celery	50	202	80	296
Collards	0	0	1	1
Corn	0	4	0	4
Eggplant	3	2	0	0
Endive	0	0	0	1
Escarole	0	0	16	25
Lettuce	0	0	1	1
Mix. Veg.	12	60	40	185
Pas.	10	49	3	10
Peppers	0	3	3	19
Potatoes	0	0	65	509
Radishes	0	0	5	58
Totals	143	1455	275	2759

"March of Dimes" Sponsored by Club

The Woman's Club is sponsoring the "March of Dimes" for the infantile paralysis fund, being conducted at the Everglades Theatre this week. A committee of four members have solicited donations throughout the audience each night between the first and second shows and have met with continued generous response.

The following committees were appointed by the well-known chairman, Mrs. Cecie Peet, Mrs. Shelley Connell, Mrs. Clyde Connell.

Continued on page 4

This is what we've been working for all along. This is the year to his and hurt the enemy. This is the time when everything you do counts double. If we all get together and do all we can, we'll be over this hurdle and well on our way to complete and crushing victory.

No question about the men in uniform—they'll go "all out." But can we count on you to back them all the way? Your quota is where you work, because you've got to buy your War Bonds and then buy more, until every last loose cent

you have is fighting. Tough? Of course, it's tough—unless it's a sacrifice you're simply not doing your share!

Make the sacrifice now—buy more than the extra \$100 Bond your country counts on you for—winning the war is worth any sacrifice you make. Besides, you aren't giving, you're lending America! You'll get back every dollar you invest in War Bonds, with interest.

An extra \$100 War Bond now is the minimum for everybody—can't we count on you for more?

This sticker in your window means you have bought 4th War Loan securities.

Let's ALL BACK THE ATTACK!

Last of the Daltons Business Visitor In The Everglades

With a record of more than a score of killings—11 in self defense—eighteen years in "College," which is an institution for keeping of those who have violated our laws commonly known as a jail, having been sentenced to hang a couple or more times, and having been one of the notorious train robbers of the west, it is not normally supposed that such a man would be all-right on an armed force.

However, R. E. Dalton, a man with such a record was a visitor in Belle Glade this week, and will be back on business—being Judge Colt's business, but a respectable business man and a respected citizen.

Colonel Dalton will talk freely, though not proudly, of his record and explains, that the James and Younger families, together with his own got off on the wrong foot, through the unfair advantages taken.

However, Colonel Dalton has taken his place in the business world with friendships among the mighty in politics and finance. He is interesting himself

in Florida oil which he is sure is here in generous quantities. As an independent operator, he expects to be instrumental in sinking several wells, and probably one or more of his own.

BOOTS CHILD IS INSURED

Stewart Boots, 21 months old son of Mr. and Mrs. Vernie A. Boots, sustained severe scalp lacerations when he fell from the back seat of the car being driven by his mother Wednesday morning.

The child was alone in the back seat when he leaned against the door or in some way got it open and fell into the street near his home. He was immediately taken to the Migratory Hospital as an emergency case and after an examination it was decided that his injuries are not serious.

Potato And Onions Subject Of Visitor

C. L. Fitch, secretary of the National Potato and Onion Committee, will talk to Glades farmers in Belle Glade Friday night at the Town Hall, at 8:30 o'clock.

Mr. Fitch is an authority and

his subject will be on the breeding for seed resistant seed potatoes, as well as new onion varieties.

Everyone is invited.

Life Magazine Photographs Crops

Two staff members of Life Magazine have spent a couple of days in the Glades photographing the vegetable industry, in a field along the Bole canal, Sugar fields, Ritta Brand cabbage field, along the Bole canal, Peet Bros, Wedgworth and Huffy farms are some of those photographed.

Packaging operations on potatoes and celery were taken in the Wedgworth packaginghouse. The visitors expressed belief that they had the material for an excellent written and photographic story of the activities of the winner of the Army "A" Award for food production.

4th War Bond Drive Gets Off To A Good Start Through Workers

RATION DATES

Sugar
Book 4, stamp 30 valid for 5 pounds through March 31.

Gasoline
In 17 east coast states A-8 coupons are good through February 8.

Shoes
Stamp No. 18 in Book One good for 1 pair. Stamp No. 1 on the "airplane" sheet in Book Three, good for 1 pair.

Meats, Fats
Brown stamps R. S. T. and U valid through January 29; V valid through Feb. 26.

Processed Foods
Stamps G, H and J good through February 20.

All Organized Bodies Co-operating To Secure 100 Percent Purchasers

Milton Campbell's War Finance Committee has been active in high gear, despite the fact that he is in bed wrestling with a case of flu.

Those who school children will be afforded the privilege of examining at close quarters a captured German 88 mm gun, a M. A. captured machine gun, some small arms used by the U. S. Army, between the hours of ten and eleven o'clock at the High School today.

From eleven to twelve, the grown-ups will be allowed to view the equipment at the Town Park, and from twelve to two the negro children will be given a turn.

The Lion and Rotary Clubs will have a lioness on display at 12:15 when reports will be received from the Rotary and the Lions, the B & P W C and the Legion which have been asked to place the name of a soldier on each of the seats, one for each bond sold.

The Belle Glade picture show is undertaking to sell a bond for each seat in the Theatre and offers to place the name of a soldier on each of the seats, one for each bond sold.

The negroes of the community are working hard and have a number of solicitors canvassing. No doubt they will make a very good report on the effort to sell bonds.

George Scarborough is contacting the merchants of the community in an effort to secure a purchase from each merchant and all employees.

The Women's Club is represented in the effort by Mrs. J. R. Neller, who is canvassing their members to purchase a bond in the Fourth War Bond Drive.

The Masonic Lodge is embarking on a campaign to insure each member as a bond purchaser.

Mrs. Mary McLenon is taking care of the Legion Auxiliary as bond purchaser.

Veteran Pilot of B-17
Captain Clare M. Smartt a veteran of 50 bombing missions in Flying Fortress over Africa and Europe is a visitor to the Town today to assist in the war bond drive.

Captain Smartt is a native of Cookeville, Tenn., and wears the distinguished Flying Cross received in North Africa.

American aid on Europe; the Captain has had various experiences. A number of times he has (Continued on page 4)

Ladie-e-e-e-s and Gentlemen--

I Want To Be

YOUR GOVERNOR

St. Augustine—The second step in a move to unite former soldiers, and marines in a statewide campaign to elect Frank D. Upchurch governor has been completed here with the organization of State Headquarters of Florida Veterans-for-Upchurch clubs.

Establishment of state headquarters of the clubs in St. Augustine was done at the specific request of veterans throughout Florida who have indicated such an arrangement would better enable them to coordinate their work with that of Senator Upchurch's campaign headquarters.

George Bennett, of St. Augustine, named temporary chairman of the headquarters group, said Florida veterans were supporting Frank D. Upchurch for governor, not merely because he is a World War veteran, but because his program includes a definite plan for the rehabilitation and economic education of the men and women who will return from service in the present conflict.

Ray Kauble, vice chairman, declared "veterans, acting independently of any regular organization, are supporting Frank Upchurch because they know his qualifications, because they like and respect him, but more important because they are interested in good government."

Other members of the headquarters group include Gale M. Merchant, St. Augustine publisher who will act as secretary and public relations director; R. O. Holton, C. L. Mickler, Emmett Gardner, H. B. Stuckhouse, J. T. Van Campen, Ludwig Natchmann and Locke Crumley, members of the executive committee.

Get \$4 for \$3 out of your CHRISTMAS savings—invest in WAR BONDS. Keep on BACKING THE ATTACK.

Over 200 Visitors And Hundreds Of Home Folks See CAP Parade

Major R. P. Robbins piloted eight planes and 153 junior CAP Cadets to Belle Glade Sunday afternoon with General Earnest Scott, USA retired and Captain Zack Mosley, cartoonist, as distinguished guests.

The National Commission on CAP led by Col. Johnson showed up unexpectedly and joined the General in a talk to the students.

A few exhibition drills at the City Park, the entire entourage led by the Pahokee band marched to the bridge where they were picked up and carried to the field for the speaking and additional exhibitions.

Lieut. Roy Alspaugh, CAP, rattled the show for his outfit.

RATION BOARD TO HAVE NEW HOURS

Due to the fact that the farming season has been keeping our board members very busy, especially during the mornings, their meeting time has been changed to the following hours: Monday, Wednesday and Friday from 8:30 a. m. to 3:00 p. m., effective Monday, January 31, 1944. It is hoped that these hours will be satisfactory to all concerned.

Assurance From Home

When Secretary of the Treasury Henry Morgenthau, Jr., said that America's fighting men and women want assurance "that we on the home front are fighting the war, too," he spoke from firsthand contact with those on the battlefields. Surely servicemen who have left families and jobs and schooling to protect those at home need more and more of this assurance to offset news reaching them of strikes, petty strife, selfish demands and war profiteering.

The Fourth War Loan presents a fresh opportunity to back up America's fighting men, to send them forth on the long-awaited invasion across the Channel with the conviction that the Nation is solidly behind them, that through the loan of their dollars the people are furnishing them with the best equipment possible. Everyone may not be able to shoulder arms or make the arms the soldier shoulders. But all—production workers, housewives, civilians in every walk—can put every available dollar into those arms, into guns and tanks, barges and planes.

The invasion will be the costliest affair the United States Government ever has attempted. But it is well to remember that its cost in human lives can be lowered if Americans do not stint on the quality and quantity of munitions and other material. Each has his part in the plans. Let all help now by oversubscribing the \$14,000,000,000 for which the Treasury is calling.

The Germ of Inflation

There has never been any argument about the fairness of rationing supplies so that all persons might get a share of scarce commodities. But no one has yet figured out how price ceilings, which discourage production, will increase supplies of scarce commodities.

Some day our economic wizards may learn the wisdom of planning for plenty, instead of merely rationing for scarcity, which is the germ of inflation. Months ago, for example, the disparity between the cost of producing milk and the selling price allowed, was pointed out and correction urged. But the matter was disregarded and the charge made that farm prices were responsible for inflation, regardless of increased labor and supply costs.

Well, butter is disappearing, cream is a thing of the past, cheese is a luxury, and milk is still growing scarcer. Farmers are going out of milk production in all parts of the country. The national attitude toward milk daily grows more mysterious as supplies dwindle.

Why We Are Winning

Up to now the full story of the developments and production of 100 octane aviation gasoline has been a military secret. But at last some breathtaking statistics are being released. Following are a few of them:

1. One thousand 4-engine bombers use 1,800,000 gallons of 100 octane gasoline on a 6-hour mission.
2. In January, 1942, only 22 refineries were producing 100 octane gasoline or components of 100 octane. There are now more than 100.
3. United States and Caribbean refineries are supplying today 88 per cent of the 100 octane gasoline used by the United Nations.
4. To train one pilot requires consumption of 12,000 gallons of aviation gasoline.
5. One thousand 4-engine bombers, flying to an objective 1,000 miles away, and using 100 octane gasoline, can carry 5,000,000 more pounds of bombs than could be carried if ordinary pre-war aviation gasoline was used.
6. 100 octane gasoline was specifically developed for combat use.
7. 100 octane gasoline was a laboratory curiosity as recently as 1933, at which time its cost would have been \$16 a gallon. The first 100 octane sale, made to the Army in 1934, was at \$2 a gallon. Today 100 octane gasoline is being bought by the government at less than 15 cents a gallon.

These are a few of the achievements of a single industry in wartime America. The cold figures describe better than glowing phrases the value of unrestricted individual initiative; the kind that built the oil industry and now brings victory within our grasp.

Awakening

From farmers to bankers, from workmen to business men, a majority of whom have heretofore been too preoccupied with making money to think about more fundamental matters, the people of the United States are awakening to a great danger. They are beginning to realize that freedom may be lost in this nation.

Evidence of the awakening is pouring in from every side. No one is more impressed with this new stirring of mass intelligence than are editors. Their desks are swamped with statements, opinions and warnings of a kind that in the past were uttered only by a handful of statesmen.

Numerous labor leaders have expressed growing fear of big government, and warn that labor's future depends on the maintenance of individual enterprise. Not far behind in similar expressions are the bankers, whose awakening is typically expressed in the remarks of Lee Wiggins, president of the American

AMERICAN HEROES

BY LEFF

A B-25 was taking off somewhere in North Africa. It crashed and burst into flames. Private Eugene A. Ginter rushed forward with three other soldiers to aid the crew. The plane was overflowing with bombs and incendiary bombs. Ginter and his companions, drenched from the hoses of rescue apparatus, rescued three crew members from the blazing ship. Then Ginter returned to remove loaded 50 caliber machine guns. He won the Soldier's Medal. Such are the men who War Bonds fight beside.

Bankers Association, who happens to be a small town banker and is proud of it. He recently declared: "An equitable tax system that will make new business possible will do more to preserve our system of private enterprise than soldiers' bonuses..." In his opinion bankers are always sounding off about private enterprise, but haven't done much about it, and he added: "Meanwhile, the government has moved into private banking to an extent that the public doesn't suspect. The banker is just beginning to discover that this is the road to socializing the banking system."

The farmers are also discovering the danger inherent in an expanding government of men rather than laws. A special House agriculture committee has charged that farm families have been held as virtual slaves on government rehabilitation projects. In Michigan, members of the State Farm Bureau have suggested that a plan be worked out whereby farmers can insure their own crops and dispense with government crop insurance. And farmers all over the country are hotly opposed to the freedom-destroying principle of subsidies.

In the front ranks of the New Awakening are the business men. The editor of a group of leading business publications bluntly strikes at provinciality in front offices with the words: "Thinking straight about problems that are beyond our personal and immediate status and our pocketbooks, thinking about problems that involve nation-wide buying power—in other words, the operation of our entire economic system—involves real self discipline. Yet there is no other way to safeguard our freedoms."

And finally, to those who foolishly rail at bureaucracy and plead for favors from government in the same breath, Hutton Summers of Texas, chairman of the House Judiciary Committee, has voiced a reminder that should be quoted from one end of the land to the other: "You people are the government. The government is not in Washington."

"In our system, the State provides the only machinery through which democracy can function. The Federal organization was never intended to do the job. It cannot do it, except as a bureaucracy. The people created the Federal organization to do a relatively small number of things: To be their agent, not their master."

Congressman Summers is to be congratulated. He is hastening the Awakening.

"... The time has come when all economic pressure groups within the country should recognize that they have no right to expect to be paid for winning this war, but that the country and American poster-

ity has the right to expect them to start paying for winning this war by much greater financial sacrifices than any group has made to date..."—Wayne L. Morse, member National War Labor Board.

CINEMATIC CHATTER

By Malcolm Millar

When they team two personalities such as Olivia de Havilland and Robert Cummings in such a delightful picture as "Princess O'Rourke," which they have done, and which will be screened at the Everglades Theatre with the Owl show on Saturday and the Sunday-Monday run, and with this pair they throw Charles Coburn, Jack Carson and Jane Wymann, you know, without further reading, you are going to see a show that will be wholly enjoyable.

This columnist honestly believes this will prove your show of shows. I cannot find words to tell you how big and lovable this is, but I am sure you'll go for this picture in a big way.

For a riot of laughs, the rib straining ones, don't fail to see "Adventures of a Rookie," which stars Wally Brown, Alan Carney and Peggy Linden. Brown and Carney are called in Hollywood as two new comic finds who are going to surprise America with their cleverness. Well, all I can say is, they have a good story to work on and we'll hie to the theatre and then pass our judgment.

Tom Conway, teamed with Jean Brooks and Isabel Jewell, comes in for the Thursday-Fri-

HOME NURSING CLASS

IS MAKING PROGRESS

The Red Cross Home Nursing class, now being taught by Miss Pirkle of West Palm Beach, is well under way and the members are showing more and more interest in their class work.

This course has advanced to the extent that membership is now closed, but as soon as this is completed, a new class will be organized. Those enrolled are: Mrs. Walter Hooker, Mrs. Pete Suran, Mrs. Sam Fleming, Mrs. Lee Hayman, Mrs. E. W. Bewick, Mrs. H. O. Earwood, Mrs. W. M. Johnson, Mrs. G. L. Bryant, Mrs. Ray Taylor, Mrs. Ivan Van Horn, Mrs. W. T. Elder, Mrs. Cees Peet, Mrs. Geo. Royal and Mrs. Bryant McLendon.

TWO LEFTS CHILDREN CELEBRATE BIRTHDAYS

Mrs. Fred A. Lefts entertained twice at her home recently with birthday parties honoring her son, Fred, Jr., and Joan. Last Thursday afternoon Fred, Jr., celebrated his ninth birthday anniversary with a birthday party. A patriotic color scheme was used in the birthday cake and other refreshments.

Those attending were Joanne Kent, Charlotte Currier, Joan Lefts, Billy and Lee Burke, Donald and Gilbert Amann, Bobby Hooker, Fritz Stein, Jr., John and Walter Schlechter, Ross Winne, Kenneth Kirchman, Edmond Jamson and Howard Hill.

The second in the series was held Tuesday night, observing the eleventh birthday anniversary of Joan. She also chose red, white and blue for her birthday cake and refreshments.

Mrs. Lou Currier, Mrs. R. S. Kent, Miss Betty Ann Hill and Miss Alice Cronmarie assisted. Joan's guests were Charlotte Ann Currier, Daphne Schrieber, Kaye Lutz, Janie Brackin, Don-

na Lee Bowman, Patricia Whidden, Marguerite Campbell, Joanne Kent, Alvin Leathers, Huell Frier, Jimmy Herring, Bobby Williams, Edmond Jamson, Merle Smith, Billy Bailey, Adrian Rashley, Howard Hill, Lee and Billy Burke, Gilbert Amann, Howard Connell, Walter Schlechter, Bobby Kent, Richard and Fred Lefts, Jr.

NOTICE TO MARINERS—A February 1944 An area approximately two miles square in Lake Okechobee, bounded as follows: northeast corner, 25 degrees 47' latitude, 80 degrees 40' longitude; northwest corner, 25 degrees 47' latitude, 80 degrees 40' longitude; southeast corner, 26 degrees 45' latitude, 80 degrees 40' longitude; southwest corner, 26 degrees 45' latitude, 80 degrees 40' longitude. All actual preparations are being conducted from this area daily and all boats and vessels are being ordered from this area. Least L. W. ALFORD, Port Lauderdale, Florida. U. S. Naval Air Station, Port Lauderdale, Florida.

PlaySafe

According to the best authorities, the minimum age for a child to be vaccinated is 12 months. Complex Vaccination recommended by the U. S. Public Health Service is as follows: 1. Diphtheria, Tetanus, and Pertussis (DTP) 2. Polio (Polio) 3. Measles (Measles) 4. Mumps (Mumps) 5. Whooping Cough (Whooping Cough) 6. Smallpox (Smallpox) 7. Typhoid (Typhoid) 8. Cholera (Cholera) 9. Dysentery (Dysentery) 10. Yellow Fever (Yellow Fever) 11. Rabies (Rabies) 12. Scarlet Fever (Scarlet Fever) 13. Diphtheria (Diphtheria) 14. Tetanus (Tetanus) 15. Pertussis (Pertussis) 16. Polio (Polio) 17. Measles (Measles) 18. Mumps (Mumps) 19. Whooping Cough (Whooping Cough) 20. Smallpox (Smallpox) 21. Typhoid (Typhoid) 22. Cholera (Cholera) 23. Dysentery (Dysentery) 24. Yellow Fever (Yellow Fever) 25. Rabies (Rabies) 26. Scarlet Fever (Scarlet Fever) 27. Diphtheria (Diphtheria) 28. Tetanus (Tetanus) 29. Pertussis (Pertussis) 30. Polio (Polio) 31. Measles (Measles) 32. Mumps (Mumps) 33. Whooping Cough (Whooping Cough) 34. Smallpox (Smallpox) 35. Typhoid (Typhoid) 36. Cholera (Cholera) 37. Dysentery (Dysentery) 38. Yellow Fever (Yellow Fever) 39. Rabies (Rabies) 40. Scarlet Fever (Scarlet Fever) 41. Diphtheria (Diphtheria) 42. Tetanus (Tetanus) 43. Pertussis (Pertussis) 44. Polio (Polio) 45. Measles (Measles) 46. Mumps (Mumps) 47. Whooping Cough (Whooping Cough) 48. Smallpox (Smallpox) 49. Typhoid (Typhoid) 50. Cholera (Cholera) 51. Dysentery (Dysentery) 52. Yellow Fever (Yellow Fever) 53. Rabies (Rabies) 54. Scarlet Fever (Scarlet Fever) 55. Diphtheria (Diphtheria) 56. Tetanus (Tetanus) 57. Pertussis (Pertussis) 58. Polio (Polio) 59. Measles (Measles) 60. Mumps (Mumps) 61. Whooping Cough (Whooping Cough) 62. Smallpox (Smallpox) 63. Typhoid (Typhoid) 64. Cholera (Cholera) 65. Dysentery (Dysentery) 66. Too Much Blue Devil
In the basketball game on January 26 in which the Belle Glade Rams played the Pahokee Blue Devils the starting lineup was:

Blue Devils	Rams
Branch	Cobb
Danson	Kent
Wilkinson	Newman
Pope	Cherry
Funderburk	Richmond

Hugh Branch made 30 points for Pahokee and Charles Wilkerson 18. Billy Jeffries made 9 points for Belle Glade and Bobby Newman 4. The final score was Blue Devils 62, Rams 15.

Some of the games to be played are West Palm Beach at W. Palm Beach, Jan. 28; Riddle McKay at Clewiston, Jan. 31; Clewiston High at Belle Glade, Feb. 4.

MISCELLANEOUS SHOWER
HONORS RECENT BRIDE
Mrs. George Boydston and Mrs. James M. Baron entertained at the home of Mrs. Boydston Saturday afternoon with a miscellaneous shower honoring Mrs. Guy Stovall of Key West, formerly Miss Mary Hall of Belle Glade.

Miss Eleanor Hearne played a number of piano selections and accompanied Mrs. Frank Anderson who sang.

The guest list included Mrs. Jack Barrett and Mrs. W. A. Adams of Canal Point; Mrs. Darrel Smith, Mrs. Nola Dragon, Mrs. Paul Sasser and Mrs. Wilda Morgan of Pahokee; Mrs. F. D. Stevens, Mrs. Richard Townsend, Mrs. Edward King, Mrs. J. R. Neller, Mrs. Wendell Lyons, Mrs. Roy A. Bair, Mrs. Thomas Breger, Mrs. Philip Clayton, Mrs. Nell Sullen, Mrs. Ralph Kidder, Mrs. Ernest McDonnell, Mrs. Willard Sheffield, Mrs. Lee Puckett, Mrs. Luther Jones, Mrs. Ruth Peebles, Mrs. Lou C. Betzner, Mrs. Harry Hummel, Mrs. Walter Gebel, Mrs. Thomas Forre, Mrs. Geo. Taylor, Mrs. H. H. Wedgworth and Mrs. Hampton Holloway.

"MARCH OF DIMES"

Maynard, Mrs. I. van Van Horn, Mrs. Al Mulach, Mrs. Charles Harris, Miss Adelaide Perry, Mrs. Carl Cone, Mrs. Richard Townsend, Mrs. W. J. Buck, Mrs. Roy A. Bair, Mrs. L. B. Johnson, Mrs. O. H. Earwood, Mrs. Luther Jones and Mrs. James Ball.

OVER 200 VISITORS

Continued from page 1
had crew members killed or wounded and his plane shot up. For a twenty-six-year-old former civilian with almost three years service, this man is indicative of what the "younguns" are doing in this war.

Captain Smartt will talk to the High School students and to the combined Rotary and Lions Club in the bond drive effort.

Spaghetti Supper To Benefit Library

Don't forget to attend the spaghetti supper to be given at the school cafeteria on Thursday night, February 3 at 6:30 for the benefit of the school library fund.

The library committee has set a goal of \$150 to be made this year for new books that are needed to maintain an accredited library and the support of the citizens will be needed to realize this amount.

FIGHT AND WRITE

(Continued From Page 1)
four sons in the Navy and is corresponding with seventy other boys, some who receive no mail from the Glades except from her.

"Received a telephone call on Saturday and it turned out to be Private Mary Horton, my sister, who is stationed at Westover Field near Springfield, Mass. I got the Major to furnish a plane and lot to carry me down Sunday afternoon to see her. Its only about 75 miles by air. She looks very good and likes the WAC's very much.

"I had supper at the WAC

TOO LATE TO CLASSIFY

WANTED—Information who used so much Spry and Snowflits in my room at the Rutledge house since June 7th 1943. Nearly all the decent people remembers this far back. J. A. Globe a 1-28-44

WANTED—Two wheel trailer, must be in good condition with good tires. Phone 250 or address Box 6, Chosen, Fla. 1-28-44

mess and with my stripes and ribbons and the fact that I came in by special plane, well, I had a pretty good time. It made Mary happy, but its no fun to be stared at by 100 women."

SAVE NOW!

For Today
and Tomorrow

Buy a war bond today, not only to insure your own security but to give a helping hand to the boys in uniform who risk their lives for victory. They must have the implements of war that you alone can provide.

You can make your bonds do extra duty by saving them to make possible that all electric home everyone plans to have after the war. After the war you can use the money for the latest in labor-saving equipment and to modernize unsafe, antiquated wiring.

SO—Keep On Buying War Bonds

Don't Waste Electricity
Just Because It's Cheap

OPPORTUNITY CALLS!

Elect

FRANK D. UPCHURCH
GOVERNOR OF FLORIDA

Join the thousands of Floridians now supporting Frank D. Upchurch's candidacy for governor. His election will assure a united Florida, continued progress, with new and greater opportunities for all.

- FRANK D. UPCHURCH IS—
- A Real Floridian
- A World War Veteran
- Experienced in Government

He is fitted by education, training and background to be a great governor of Florida.

AGRO-INDUSTRIAL

GOLD

in Florida's Sugar-Bowl

LIMITLESS agricultural wealth fills Florida's vast Everglades sugar-bowl to overflowing... and there are also agro-industrial opportunities so brilliant that Florida may become a greater, richer manufacturing state than any Floridian has yet dared imagine.

Development of these opportunities is under way... slowed down by war but moving ahead nevertheless toward a dazzling, prosperous and not too distant tomorrow.

Insignificant in comparison with the immense possibilities of the future but typical of the many finished agro-industrial products, that will one day be manufactured in the Everglades is the United States Sugar Corporation's recently developed Lemongrass Pulp and Molasses Feed for cattle.

This new feed is wholly a product of the Everglades. It is important to every Floridian because it reduces the cost of feeding beef and dairy cattle and encourages further growth of Florida's already important cattle industry.

Thus, step by step, are the unbelievable riches of the Everglades being converted for use. And each advance, however small, contributes to the present and future prosperity of all Floridians.

Oil Leases

I want several large tracts—five to ten thousand acres each—for short term leases.

I will agree to commence drilling a well to specified depth within a specified time—three to five years.

References as to integrity, business ability and knowledge of the business to those justifiably requesting it.
